## COMPLAINTS AS TO RATES.

THEY WILL BE HEARD BY THE INTER-STATE COMMERCE COMMISSIONERS.

First Session Will Be Held Friday in the Commercial Club Rooms-Some of the Matters That Will Be-Considered

To-morrow morning at 10 o'clock at the rooms of the Commercial Club there will be a session of the interstate commission held. The vessions of the com-missions are dicketed to continue over changes made in the plans formed for the trip, it cannot be stated just how

for action at the hands of the commis-sion. One is the question known as the Omaha case, in which the people of

the same rates be made between that city and Houston and Galveston as are in existence between these Texas points and Karmas City on the shipment of cattle. This question is not considered of much importance to the people helts, although the unfairness of the request is so plainly apparent that the local radirond men express no doubts of its prompt refusal.

The other matter is the Wichita case, and involves the rates on fry goods from Texas points to Wichita. That city wants to have the name importance shown to it as a shipping point that is accorded this city, and asks for the same rate to Southern points. It is apparently the reopening of the old controversy that has been very thoroughly aired many times.

many times.
The fact that the complainants have

The fact that the complainants have the right at any time up to or at the time of the hearing to bring in supplementary complaints may be taken advantage of and the Wichita people may throw many other issues into the fight before the commission.

The other question is regarding the rates on lumber from points in Arkansas to this city and points in Arkansas to this city and points in Kansas, of which there have been some complaints to the commission. There is nothing much to be developed in this matter.

There is a very general impression that the demands contained in the Omnha question are very unjust. That city has long fought for a half of the cattle trade of the far Southwest, but being located geographically in the wrong place, was unable to secure it. wrong place, was unable to secure it.
Of late years the Northwest has developed a great desire to ship stock to Kansas City and this the Omaha people have been unable to stop. There has a very hostile feeling grown up, especially very hostile feeling grown up, especially since it has become necessary for certain Omaha packers to come to this city and purchase stock and send to that place for slaughter. The city asks for the same rate to be made between Texas common points and Omaha that exists between the same points and Kansas City, thus making it necessary for the railroads to haul the stock the entire distance from here to Omaha for nothing.

The members of the commission have been in Omaha for three days taking testlmony in the Omaha case, although the real hearing is to be in this city. Several parties from Kansas City are in Omaha attending the sessions and taking part in the fight. Among the number are Commissioner Vanlandingham and Frank Hagerman.

The members of the commission are expected to arrive in the city either this evening or io-morrow morning, according to the time the hearing is closed at Omaha. The members of the party are: Hon. William R. Morrison, of Illinois, chairman; Mr. Wheeler G. Venzy, of Vermont, Judson C. Clements, of Georgia. With the commission is Mr. Martin S. Decker, assistant secretary, and J. H. Fishback and Frank Lyons, stenographers.
